GRADES 1-2

Mrs. Elliott's grades are having a great time learning about the parts of the body. As you can see they have an outline of their body and have started to put the parts of the body on it. The lower right picture the children are measuring how long small intestines are in an adult and in a child. They learned that in an adult it is 30 feet long and in a child it is 20 feet long. What a great class. I wish I was doing this class.

The True Meaning of Christmas

Jesus Christ was born this day
So many years before
He came a servant to the lost
Though he was Lord of Lords

We celebrate the joyous time
Reflecting on His birth
Not born in a mansion, but a stable
As if He had not worth

He came so He could identify
With the human heart of man
And gave His life as a sacrifice
Offering a better plan

A plan that reconciles us back
To our loving Father God
Bringing hope and redemption from
Sins ruling iron rod

For this is the only reason that we
Should celebrate this day
To become focused on anything else
Would take the meaning away

So let's arise with joy in our hearts
And share it with everyone
The meaning of Christmas will always be
The birth of Jesus - God's son
